# Annual Report

## A LETTER FROM OUR Executive Director

As you turn the pages of this 2024 Annual Report, I invite you to see beyond the numbers and into the heart of the work we do at ABC House. Each statistic, each story, is a beacon of hope, a testament to the transformative power of your generosity and commitment to ending child abuse and neglect in our community. Your support is the bridge between trauma and triumph for so many children.

This year, thanks to you, we provided critical child abuse assessment services to 853 children and their families—a record number that underscores the growing need for our services. Each child who walks through our doors represents a life changed, a future redirected toward healing and resilience. Your contributions have created a sanctuary where children can find hope, safety, and empowerment.

In addition to serving more children than ever, ABC House underwent a rigorous reaccreditation process this year with the National Children’s Alliance. We passed with flying colors, marking 25 years of accredited excellence—an achievement that reaffirms our unwavering commitment to providing the highest standard of care for the children and families we serve.

“

Your support is the bridge between trauma and triumph for so many children.

Karsen O'Bryan  
Executive Director

In 2024, your generosity enabled us to offer:

- 192 forensic medical exams
- 623 medical consultations
- 774 family support and referral sessions
- 247 forensic interviews
- 447 hours of trauma counseling sessions

Our beloved Courthouse-Facility Dog, Xander, has been by our side every step of the way, providing comfort to children and their families during some of their toughest moments. Xander's calming presence has become an integral part of the healing process for many of our young clients.

Together, we have made remarkable strides in our Community Education Program, reaching nearly 5,400 students, educators, professionals, and community members with essential child abuse prevention training in 2024. Your unwavering support ensures that we can continue expanding this vital educational outreach, laying the groundwork for a safer future for all children in our community.

Your generosity is the catalyst for change, the spark that ignites a brighter future for the children we serve. Looking ahead, we are filled with hope and determination. With your continued partnership, we are ready to take bold steps toward enhancing our services and expanding our reach. Together, we can ensure that every child who needs us receives the care and support they deserve.

Thank you for standing with us, for being the cornerstone of our success, and for walking this journey with us. Together, we have made a profound impact, and with your support, we will continue to build a community where every child can thrive.

# OUR SERVICES

All services are provided on location at the ABC House

## Medical Exams & Consultations

Our medical providers are child abuse experts and remain supportive, objective, and neutral throughout the child's head-to-toe exam. Any physical signs of abuse are documented and may be used as evidence in the abuse investigation. Equally important, children have the opportunity to ask questions about how the abuse may have affected their bodies and development, and to receive reassurance from our trained staff.

## Forensic Interviews

Forensic interviews are legally justifiable, fact-finding interviews with a child conducted by professionals trained in talking to children to obtain accurate and objective information. The purpose of a digitally recorded forensic interview is to reduce the number of times children need to share their experience.

## Family Advocacy & Support Services

Families receive support to help them cope with the discovery of abuse and navigate at a time when their lives have turned upside-down. Our Advocates provide families with information to help non-offending caregivers understand the child abuse assessment and investigation processes, as well as connect them to any needed community resources.

## Trauma Counseling

ABC House counselors specialize in trauma treatment to help children and their family members process what has happened to them and move forward. Children learn strategies to help them manage their fear or feelings of being out-of-control when remembering abusive events, and to focus on their own strengths and abilities. These services are offered as long as they are needed.
